Payment terms

Payment in advance or 8 days or net on 30 days - payments must be settled in full within the allowed time

Should an account become overdue for payment, the supply of goods may be suspended until the outstanding balance is fully paid.

Colour fastness

Our fabrics are not guaranteed against fading. The light scale is from 1 - 8. 1 being least resistant to fading from light and 8 being most resistant (no fading).

Cleaning

Please refer to the care code given in the price list against each item, the index for which is shown below. Our fabrics are not guaranteed against shrinkage or discolouration due to washing or contact with any liquid. A residual shrinkage of approximately 5% should be expected during the cleaning process.

Max temp 30°C or less

Machine wash at 40°C or less.

Machine wash on gentle cycle at 40°C or less.

Hand wash only

Do not wash.

Do not use chlorine bleach.

Do not tumble dry.

Iron at maximum temperature of 200°C.

May be dry cleaned in any type of solvent normally used in dry cleaning processes except trichloroethylene.

Limitations are placed on the addition of water/mechanical action or temperature during normal dry cleaning process.

Do not iron

Low temp iron

Max temp 150°C

Gentle wash

Do not dry clean

Water resistant

Recycled

Treatments

No liability will be accepted for changes in appearance, performance or defects in any of our fabrics if they are treated after purchase, by spraying or processing of any kind, including flame-proofing or the application of stain-repellent treatments.

Colour matching

We cannot guarantee precise colour matching against samples, or between different batches. Where colour matching is important, we recommend that a stock cutting is requested.

Stonewashed qualities can have a slight difference within the colour lot due to the washing. Washing process can be no greater than +/- 15m per load. Therefore every piece is unik and can have the slightest differences between the rolls from the same lot.

Faulty goods

Fabrics should be carefully inspected prior to cutting. Whilst every effort is made to ensure you receive the fabric in the best possible condition, damage may occur in transit. Therefore it is essential that no length cut until you are totally satisfied with the goods. No returns will be accepted after cutting, treatment or two weeks after goods are received. PLEASE CHECK THAT THE CORRECT FABRIC HAS BEEN SENT.

Fabrics may not be sent back without authorization. Returned fabrics with authorization : credit -20% administrative costs

Delivery charges/Customs duties

Order < € 500 : € 30 - Order > € 500 : free

Discounts

10% on orders greater than 50m of the same colour

IMPORTANT**Image stability**

Colored linen has a light stability of > =5 (following ISO 105B02)

The 100% natural flax color "greige" has no light stability.

We recommend this color not be used for curtains that hang in front of a window (linen blinds)

Fabrication of curtain / linen blinds / stonewashed linen

It is recommended that flax linen be conditioned in a controlled environment B190

(meaning temp +/- 20° C adverage humidity) before production

Always use a lining which is suitable for flax. Suffocate this lining so that any movement of the curtain is allowed without disturbing effects.

For example : make the lining shorter than the curtain and only stitch the side

This price list surpases all previous ones. LF Trading holds the right to change prices and discontinue items without prior notice
